

Vladislav Lee

Junior HTML / CSS coder

ABOUT

I really like my job, because it gives me some tools for self-expression, transforming the simple code into great and interesting web-sites. Every project I provide has highest quality, fully responsive, in the wide range of devices. I like to work and create some simple, beautiful and intuitive interfaces in a team. You can see that in every screen.

LANGUAGES

Ukraine - native

English - intermediate

Korean - elementary
